Historical Note

The first homestead in Fillmore County, Nebraska was recorded in June 1866. However, the extensive settlement did not begin until 1870. By the close of 1871, most of the valuable land had been claimed and by the end of 1873 the county was quite heavily populated. Many of the early settlers were former Union soldiers who desired to take advantage of veteran homestead privileges and the agricultural opportunities of the county.

Soon after the county was organized, an election was held on April 21, 1871 which established the county seat at the geographical center of the county, in the area which became Geneva. Until February 25, 1873, Fillmore County was attached to Saline County for revenue, judicial, and other purposes. On that date, a legislative act separated the two counties completely.
