HISTORICAL RECORD

Gage County, Nebraska was among the first 19 counties established by the Territorial Legislature at its first session in 1855. The county was named in honor of William D. Gage, Chaplain of the Legislature.

The first settlers did not begin to arrive in the area until 1857 when a group of passengers traveling up the Missouri River on the Steamboat Hannibal formed an association for the purpose of founding a settlement in Nebraska. A committee was appointed to explore the interior of Nebraska for a suitable site. They selected a location on the Blue River which was approved by the association. Plans for the settlement were begun immediately and the townsite was named Beatrice in honor of the daughter of the association's president, John F. Kinney. Beatrice subsequently became the county seat after a brief rivalry with the community of Blue Springs.

Gage County was the site of the first homestead in the United States under the provisions of the Homestead Act of 1862. Daniel Freeman, a Union soldier on furlough, filed a claim on a quarter section near Beatrice on January 1, 1863. The site of this homestead is now maintained as the Homestead National Monument by the National Park Service.

Following the Civil War, settlement proceeded rapidly and the completion of the Burlington railroad through the county in the 1880's spurred growth and prosperity.

SERIES TWO SCHOOL CENSUS, 1868-1978

NOTE TO PATRONS:

Beatrice City Schools, District #15, was not available for microfilming, 1891-1957. For Beatrice School Census cards, 1920-1975, see rolls 20-31 of this collection. Beatrice School Census is present in this series for the years 1868-1890, 1894, 1895, and 1958-. For Beatrice School Census 1896, see Subgroup Nine, Series One.

Inventory of Districts on microfilm and missing Districts has been revised and updated since time of microfilming records. The following listing is current and should be used instead of lists which appear on microfilm.

Dates may be confusing. Some reports are dated for ensuing school year beginning July 1 of the current year, and some are dated for the school year beginning July 1 of previous year and also dated when census was taken in next year. The Last date on the document is the date in which census records will appear on microfilm.

School District numbers and division of documents may be difficult to follow. Watch District numbers carefully for any given year. Also, more than one district may appear in one frame of a roll.

For the years 1925-1950 reports which are considered confidential by law are included in the census records. This information is CONFIDENTIAL per Section 79-4, 157 and Section 84-712.05 Neb. R.R.S. 1943. Rolls that contain this information are designated by a red dot. Staff only may reference this microfilm. Photocopies should not be made of confidential material.
