

# **Hastings Regional Center Cemetery Records Index, 1909-1959**

History Nebraska and the Adams County Historical Society have received photocopies of the "Cemetery Records" and corresponding plot maps from the Hastings Regional Center for the individuals buried in the Center Cemetery. Approximately 751 burials are included for patients buried in the cemetery from 1909 to 1959. The records are handwritten and are arranged in chronological order. Volunteer Larry Nelson, Col., US Army, Retired, and History Nebraska Assistant Curator Dale Bacon prepared an alphabetical listing of these names for History Nebraska. Besides the name, the death date and case number are given that corresponds with the marker in the cemetery. No further information is provided with this data.

## **Patients Buried in Hastings Regional Center Cemetery-Not in Burial Books, 1889-1918**

The staff at the Hastings Regional Center has provided a second listing abstracted from the medical ledger books for 399 patients admitted between 1889-1918 who were also buried in the Center Cemetery, but were not listed in the "Cemetery Records." This listing includes the name of the patient, date of death and case number.

Both lists have been combined into this one PDF document.

Any questions relating to the plot maps of the Hastings Regional Center Cemetery may be directed to the [Hastings Regional Center](#), [History Nebraska Library/Archives](#), or [Adams County Historical Society](#).

Any questions regarding the medical records of patients at the Hastings Regional Center must be directed to the Center. The photocopies of the Cemetery Records and the additional listing of burials is the only information that the historical societies have regarding patients at the Center for the years listed.

This index is to the Hastings Regional Center Cemetery Records for patients that were buried in the cemetery between 1909-1959. These records include approximately 751 burials.

Following this list is another list of patients who were buried between 1889 and 1918 who were not written in the burial book. This listing includes 399 burials. (page 22)

**PATIENTS BURIED IN HASTINGS REGIONAL CENTER CEMETERY  
NOT WRITTEN IN BURIAL BOOK**

Information for this listing was gathered from a review of all ledger books containing medical records for clients admitted 1889-1918. Review was conducted by Marj Colburn, Facility Operating Officer, and Nancy Kinyoun, Health Information Manager, on July 6-7, 2009.

“It should be noted that the handwriting in some cases was very difficult to read. It was also difficult at times to distinguish first name from last name. Spelling of the names was not consistent throughout the documentation in the medical records.”

This listing includes 399 burials.
