

NEBRASKA STATE HISTORICAL SOCIETY COLLECTION RECORD

RG0927.AM: Kaar, Ira James, 1851-1916

 Patents, etc.: 1902-1908
 Havelock, Lancaster County, Neb.: Inventor
 Size: 1 folder

SCOPE AND CONTENT NOTE

The collection consists of one folder containing information regarding farm equipment that was invented by Ira James Kaar, Havelock, Nebraska. It includes the patent applications he submitted for a Lister Attachment for Planters (1902); a Double Lister (1904); a Potato Feeding Mechanism (1908); a Disk Scraping Mechanism (1906); and a Corn and Potato Planter (1908). There are also three advertising cards for several of the Kaar implements. Also included is a history of the Two-Row Loose-Ground Potato Planter and the Two-Row Loose-Ground Lister (which was manufactured by the Lincoln Lister & Plow Company).
