NOTE: Along with this shotlist (compiled by an NSHS volunteer), the donating family has included a detailing of the film reels all their own. While it doesn't have the same shot by shot structure as a shot list does, it may still prove to be useful and informative. The Neville family's list greatly details each reel in depth in regard to the people and places pictured as well as several family anecdotes. The text was written and researched by Neville's daughters Irene Bystrom and Mary Nel Siemon. A copy of this list can be found in the collection file.
