HISTORICAL NOTE

Rock County was born at the creation of a voting precinct named Long Pine in 1879. Out of this precinct and part of Holt County, Brown County was formed in 1883. In the year 1888, an effort was begun to create Rock County out of Brown County. The county was officially formed as a result of an election held that same year on December 24th. The first county officers were elected on the same day and Bassett, which had been incorporated February 8, 1887, was made temporary county seat. In January 1889 this town was declared the permanent county seat. A county seat fight between Bassett and Newport was begun in May of 1889 but Bassett retained its title as county seat.

The first courthouse was erected at Bassett in 1890 and completed by July 21st of that year. This structure burned to the ground on March 16, 1897, and a new one was constructed in October of that year. The latter was demolished and the present courthouse constructed in 1940.

The presence of prehistoric rock formations dating back 10,000 years can be found at the site of the Rock County Gravel Pit west of Bassett. Settlers began arriving in the area in the late 1870s. The railroad (Fremont, Elkhorn & Missouri Valley RR) came through Long Pine in 1881. Land was taken up under the Homestead Law and Timber Culture Act and settlement was further enhanced by the passage of the Kinkaid Act. Rock county reached its peak population in 1940 at 3,977 residents. The handicap to population increase existed due to the lack of adequate transportation. The road through Long Pine did not serve the needs of the whole county. Many surveys and attempts at building other railroads through the county were tried and unsuccessful. The trucking industry finally solved the transportation problem.

SERIES ONE ASSESSMENT RECORDS - MICROFILM RECORD MP4008

697 volumes of personal and real estate assessments were accessioned into the Archives in 1988 and microfilmed the following year. The volumes were in deteriorating condition and much of some volumes is illegible due to mold and insect damage. No volume by volume inventory was attempted until the records were in the process of filming. Early assessment volumes are for early Long Pine precinct and Brown County to December 1888. Rock County records begin with Vol. #31 (1888)
