NEBRASKA STATE HISTORICAL SOCIETY COLLECTION RECORD

RG3762.AM: Hruska, Roman Lee, 1904-1999

Omaha, Douglas County, Neb.: Lawyer; U.S. Representative/Senator
Size: 285 cu.ft.

BIOGRAPHICAL NOTE

Born August 16, 1904 at David City, Nebraska, Roman Lee Hruska moved with his family to Omaha where he finished high school. Hruska attended the University of Omaha and the University of Chicago before graduating from law school at Creighton University in 1929. He practiced law in Omaha but soon became involved in politics. He served on the Douglas County Board of Commissioners from 1945-1952; served as vice president of the National Association of County Officials from 1951-1952; and served for a time as a member of the Nebraska Board of Control and on the Board of Regents of the University of Omaha.

Elected to the U.S. House of Representatives in 1952, Hruska represented Nebraska’s 2nd District for one term. In 1954 he ran for and won the U.S. Senate seat vacated by the death of Sen. Hugh Butler. Hruska was re-elected three times and served until his retirement in 1976. Following his retirement Hruska moved back to Omaha where he lived until his death on April 25, 1999.

SCOPE AND CONTENT NOTE

The collection covers the period of Senator Hruska’s Congressional service, from the 83rd Congress in the House of Representatives through the 94th Congress in the United States Senate; from January 1953 through January 1977. The bulk of the collection was organized into eighteen different series (see the Series Description below). Additional materials were added to the collection after the bulk was organized and inventoried, so they have not been incorporated into the existing series arrangement. These materials start on page 289 of this finding aid.

It is important for the researcher to realize that “time” in Congressional usage is measured by “Congress” as well as by “year.” Thus, for example, in many cases in this collection, the years 1955 and 1956 may also be referred to as the “84th Congress, first and second sessions.” Again, these terms may be used interchangeably, sometimes even in the same set of files in any given period. Generally, the collection is organized as it was when in use in the Senator’s office. For the most part, “Legislative” files were maintained alphabetically within a system identified by the Legislative Committees and the “Departmental” files were segmented according to the titles, e.g. Personal, Photographs, etc.

During the Senator’s term, the filing system was changed several times, and a purely alphabetical arrangement was used on at least two separate occasions. While there are varying opinions on the value of each, the researcher should be aware of the problems which these changes may present in moving from one system to the other.
Finally, it is important always to examine the Photographs series in any research within the other series. Since photographs often require special facilities for storage, all of them have been removed from their original files and have been assembled in one series in the collection.

SERIES DESCRIPTION

SERIES 1 – CORRESPONDENCE INDEX

The Collection begins with the correspondence index, which is contained in more than 36 cartons. The Index consists of a carbon copy of virtually every letter ever written from the office of Senator Hruska from 1953 until 1977, during his term in the House of Representatives and his 22 years in the Senate.

The Index does not contain incoming letters to which these were responses. Where such correspondence was kept, it, together with another copy of the Hruska letter will be found in other divisions of this collection. This series simply provides a means of examining letters written by Senator Hruska and the persons to whom that correspondence was directed. While perhaps of less importance, it is also a record of the volume or mass of material produced in the office of a United States Senator in office for roughly 24 years.

The researcher should not expect to find an additional copy of every letter contained in this index elsewhere in the collection, since certain categories of letters have not been preserved. For example, more than 12,000 case files have been removed from the Departmental series. In addition, such letters as invitations, requests for available governmental materials, simple acknowledgements, condolences, congratulations, etc. have not been retained, though a copy of practically all of them remains in this index. In all of these instances, the researcher will quickly discover that the purely routine nature of such correspondence permits it to be of interest in this collection only to the extent that it did justify either an original letter or a response directly from Senator Hruska.

SERIES 2 – PHOTOGRAPHS

This series consists of more than 4 cartons containing over 1,000 photographs. All photos are filed in manila envelopes by date from 1953 through 1976. In the event that several photos may relate to the same occasion, all of them have been filed together in the same envelope with the place and date typed on the edge. Where possible, all the persons in each photograph have been identified on the reverse side of the picture. In rare cases, a letter or other relevant descriptive material has been included in an envelope where it seemed appropriate to include it. Where two occasions occurring at different times are related to each other, that fact is noted on cross reference sheets contained in the appropriate envelopes, e.g. the five or six annual photographs taken at the Nebraska Centennial tree on the U.S. Capitol Grounds at Washington are cross-referenced one to another. It is recommended that any research made in any series in the collection should be accompanied by an examination of the photograph files under the appropriate dates.

SERIES 3 – SPEECHES

This series is contained in some 14 cartons. The speeches date from April 16, 1953 through the end of 1976, and are filed chronologically by date. The files contained in this section are of speeches made by
Senator Hruska at public gatherings during his service in the United State Congress. It does not include speeches made on the floor of the House of Representatives or of the Senate, nor at hearings or other official appearances made by the Senator while in the performance of his congressional duties at the Capitol itself. Those remarks are contained elsewhere in the Collection.

Senator Hruska’s preference for delivery appears always to have been to speak from his own handwritten notes. In many of these folders, therefore, will be found the Senator’s notes from which he spoke. While some of the folders also contain a prepared speech, occasionally with the Senator’s underlining, the presumption must be that he spoke from notes and not from a prepared text. In addition to speech notes and other indications of the substance of the Senator’s remarks, these files contain the correspondence and memoranda attendant upon his appearance as speaker.

The series also contains records of “tours,” such as those made during the annual Lincoln Day recess of the Congress. In these files, there is seldom reference to a text for the reason that on such tours a formal speech was not necessarily the manner in which remarks were delivered. In such cases, it was often usual for the Senator to converse with those present, as at a “campaign coffee.” A record of remarks is, therefore, simply not available. Further, in this division may be found files recording the Senator’s participation in such occasions as NATO Conferences, during which time no formal speech was intended, but at which remarks, though not recorded, would undoubtedly have been made by Senator Hruska as well as by other participants. In some few cases, the file may contain a transcript of remarks by Senator Hruska when his host may have recorded the remarks for publication in a professional journal or elsewhere. Such transcripts remain in the files. Others might conceivably be available in the archives of the host organization.

SERIES 4 – PRESS RELEASES

There are two cartons in this series, containing press releases issued from Senator Hruska’s offices in Omaha or in Washington, between the years 1953 and 1976. They were maintained variously in flat files and in loose-leaf binders. In both cases, they have been retained in their original form, and in chronological order. While there is possibly some duplication in the two systems because of some overlap in them, the two sections taken together should contain a complete set of press releases. Press releases were not issued with precise regularity from Senator Hruska’s office, but rather were issued in conjunction with a more important speech, bill, or comment on a particularly important issue.

Each press release containing quoted remarks was designed to represent an exact quotation by Senator Hruska, and may be regarded as such in this collection. Of course, not all of his public statements were accompanied by press releases.

SERIES 5 – TELEVISION, RADIO & FILM

There are 14 cartons in this series. The materials date from 1956. Cartons 47 and 48 contain transcripts of television shows produced in the studios of the United States Senate in Washington, together with correspondence relating to them. Cartons 49 through 60 contain a total of 235 tapes, of which 218 are television tapes and 17 are radio broadcast tapes. In addition, there are five reels of 16-millimeter movie film made from television tapes.
The TV tapes are records of appearances by Senator Hruska with various members of the U.S. Senate, the House of Representatives, members of the cabinet, the Vice President and other persons. Essentially, these tapes present a discussion of a topic of specific and current interest at the time. In many cases, the box containing each tape contains a notation describing the basic subject discussed together with the name of the other person or persons appearing with Senator Hruska.

Most of the cartons containing individual television tapes are identified only by a date on the individual box. It is uncertain whether that date always represents the same thing. For example, the date could mean either the date the tape was made, the date the tape was shown on television by the particular station, which received it, or the date it was returned to the Senator’s office. In all cases, though, the date can be considered an approximation of the time when the tape was actually recorded.

Additionally, the TV transcript themselves are dated. The fact, though, that a television tape box may bear the same date as a transcript should not be taken as indicating that the transcript and the tape are one and the same. Unfortunately, review of the tapes would be necessary in order to determine precise dates for the tapes, should that become desirable.

We are not able to say whether a copy of every tape made by Senator Hruska over the years is included in the collection.

Note: The cartons containing tapes and films have been transferred to the Audio-Visual Collections.

SERIES 6 – SPECIAL STATEMENTS

This series is found in Carton No. 61 of the collection and covers all years from 1952 through 1976. Essentially, it is composed of statements or articles written by Senator Hruska for publication. It includes items such as statements for graduating classes in yearbooks, articles in magazines, Law Review articles and reports of commissions on which Senator Hruska served as a member.

These statements were written primarily for inclusion in other than official government publications, so they will not be found in other series in the collection except incidentally. Moreover, since they were not produced with press coverage particularly in mind, there will probably be little connection between this series and those concerned with the press and TV coverage.

SERIES 7 – SCRAPBOOKS

This series is contained in boxes 62-65. It consists of all news clips and articles relating to Senator Hruska, which came to the notice of the office during the period from 1953 to 1977. Clippings for several years between 1953 and 1959 are sparse and may not be complete since they were in the files minus their binders. The source of this material was the various newspapers throughout the State of Nebraska and Washington, DC. In isolated cases, and by various means, clippings from other periodicals have been included. The scrapbooks have been compiled chronologically and were maintained in the files by year.
SERIES 8 – NEBRASKA STATE FILES AND NEBRASKA PROJECTS

This series contains 13 cartons of files (Nos. 66-79). The distinction has been made throughout Senator Hruska’s terms of office between Nebraska “State” and Nebraska “Projects” files. They are retained in this collection in that fashion. Nebraska State files relate generally to any matter of then current interest to the state and/or people of Nebraska, whether it is the dedication of a new school in a Nebraska town, a special celebration such as the Nebraska Centennial, or the like. On the other hand, Nebraska Projects are loosely identified as construction studies and programs relating to or located in the State of Nebraska and which were proposals for action by the federal government, such as reclamation, flood control, interstate highways, etc.

Although these folders are filed by year, they are continuous from year to year, and often follow a given program from the initial feasibility studies through construction to completion. Others may be continuing beyond the end of Senator Hruska’s final term. Since this particular series may have some interest to the State of Nebraska beyond Senator Hruska’s special involvement with them, all materials contained in the files of whatever nature have been retained in order that they may contribute to a fuller understanding of the particular project, even though they may be materials of ready access from sources other than this collection.

SERIES 9 – BOARDS AND COMMISSIONS

This series is contained in three cartons, in two parts. First, in carton 80 are found the files and records of Senator Hruska’s service on the Boards of Directors of private institutions from 1955 to 1970. Specifically, the files involve Directorships at colleges, universities and foundations. Second, files pertinent to International Conferences and travels abroad by Senator Hruska are found in cartons 81 (1957-1962) and 82 (1964-1968). These materials are filed chronologically by year and include representation on NATO and IPU Conferences and International Agricultural Conferences at Bogota, Columbia (1959) and Beirut, The Lebanon (1964).

SERIES 10 – PRESIDENTIAL AND OTHER NATIONAL COMMISSIONS

Cartons 83 through 98 contain all the files pertinent to Senator Hruska’s membership on Commissions to which appointment was made by a President of the United States. He has served on at least one Commission under every President from Eisenhower through Ford. Because these commissions may very well be of interest to researchers beyond the service of Senator Hruska on them, the entire record kept in the office has been preserved here including all hearings available and other materials assembled during the life of the Commission.

It will be of interest to researchers to compare the nature of the Commissions with other activities by Senator Hruska. For example, his continuous service on the Senate Judiciary Committee is additionally significant in light of his service on the Commission relating to Crime and Violence as well as his involvement with the Criminal Code Reform legislation. Likewise, his service on the several international food conferences and the National Commission on Food Marketing bear directly on his active interest in Beef Imports legislation and its relation to the cattle industry of his Nebraska constituents.
SERIES 11 – SPECIAL LEGISLATIVE VIEWS OF SENATOR ROMAN L. HRUSKA

This series is contained in one carton (No. 99) and part of another. It consists almost entirely of Committee Hearings and Reports of Committees of the Senate. Since no systematic effort has heretofore been made to collect these materials in one place, the division is not complete. It must, therefore, be used in conjunction with the complete hearings and reports collections contained in depository libraries.

In addition to the copies of hearings testimony included here, the front folder in the division contains microfilm. That film is of the card catalogue maintained by the U.S. Senate Library at the Capitol in Washington of all the appearances as a witness before Senate committees of every Senator during his term of office. It is complete, in the case of Senator Hruska, from 1954 through 1974.

In addition to Hearings volumes, this series contains some Reports of Senate Committees. Upon reporting a bill to the floor for consideration by the Senate, a report is written by the majority of the committee to make its recommendations to the full Senate. When other Senators on that committee hold views, which differ from the majority, they may also write “additional, individual, supplemental, separate or minority”, views on the subject, which are appended to the end of the Committee Report. It is often in this place that the comments of a Senator are especially important and where his views are particularly valuable. These reports, as well as the Hearings in this division of the collection are not to be considered exhaustive or complete with respect to Senator Hruska and must be supplemented as above described.

SERIES 12 – CONGRESSIONAL RECORD REMARKS

There are six cartons (No. 100-104(a)) in this series of the collection. The division contains clippings from the Congressional Record from 1954 through 1976, which record all of the remarks made by Senator Hruska on the Floor during his terms in the House of Representatives and the United States Senate. The files are kept by date. The remarks of the early years were maintained in flat files; those of the later years in loose-leaf notebooks, again by date. There is no subject matter index included with these clippings. The Index to each volume of the Congressional Record, in all depository libraries, however, will give a convenient reference by subject. Correspondence with respect to Senator Hruska’s floor remarks is included in this series.

SERIES 13 – VOTING RECORDS

A complete record of the votes cast by Senator Hruska in the Senate from January 1955 through 1976 is contained in cartons 105 through 109 of the collection. It is loose-leaf bound printed material prepared by the Republican Policy Committee of the Senate. Each record vote is recorded by date and vote number in the particular session of the Senate. The vote of each Senator and the total yea-nay record is included. In addition, a synopsis of the particular measure being voted is included along with a resume of the pro and con arguments offered in debate on the subject.
SERIES 14 – LEGISLATION—RLH BILLS

The “RLH Bills” Series of this collection contains 11 cartons of files organized by Congress. They include almost 1,000 specific legislative proposals from the 83rd through the 94th Congresses. The individual folders are filed by the original number assigned by the Senate to that legislative proposal at the time it was introduced by the principal sponsoring Senator. By far, the greater percentage of these bills will appear under an “S” number designation; the “S” representing a bill originally introduced in the Senate. Other designations to be found in the collection identify Resolutions in the Senate and Bills and Resolutions introduced originally in the House of Representatives.

A number of these bills will be seen to be “private bills.” Their numerical designation does not indicate this distinction, and they are treated legislatively equally in every sense with “Public bills.” They are, however, recognizable in substance as relating to “relief” for a particular individual person. If enacted, therefore, they afford the requested relief to that person, but they do not enter the general body of federal public law.

A great deal of legislation is done in Committees of the Congress, and often in previously unwritten form, on the Floor of the Senate. This series of bills, therefore, does not represent a complete list of Senator Hruska’s legislative proposals. It would be necessary to examine the executive minutes of Congressional Committees and the Congressional Record of the appropriate time in order to determine the nature of other proposals made by Senator Hruska, which have become part of the law.

SERIES 15 – LEGISLATIVE FILES

There are 54 cartons (Nos. 121-174) in this series, which contain correspondence written to constituents and other persons relating to pending legislation on all subjects. The carbon copy of the letter sent by Senator Hruska is in most cases appended to the letter from the addressee to which the Senator’s letter is a response. Continued correspondence with the same person on the same issue is stapled together, though there may well be instances where a separate exchange of letters on the same subject is filed separately. Included in this series (carton 121) is a copy of every “Robotype” letter used in answering volume mail from 1955 to 1976.

These files are arranged, where possible, alphabetically under the name of the appropriate Congressional Committee, since all legislation must be referred to specific Committees for action in the Senate. There are two exceptions to this arrangement:

First: Files on the Judiciary Committee (cartons 122-127) and the Appropriations Committee (cartons 128-133) have been lifted from appropriate order and placed at the beginning of the series since they were the principal legislative committees on which Senator Hruska served and, consequently, will be found to be more detailed and complete than most others.

Second: Several times over the years, filing systems different from the one above described were tried, usually with unfortunate results. They are found to be generally a simple alphabetical system. They have been left as they were used but the researcher should be aware of these changes.
Finally, the researcher is reminded that, in the case of the Appropriations Committee files, files designated by year might cause problems since many of those files are titled by “fiscal” year rather than “calendar” year, fiscal year preceding calendar year by one (e.g. fiscal 1977 appropriations bills, until the new Budget Committee structure of the Congress were considered during calendar 1976.)

SERIES 16 – DEPARTMENTAL FILES

Cartons 175 through 200 contain correspondence between Senator Hruska and the various Departments of the Executive Branch of the federal government. Such correspondence would include letters between the members of the Cabinet, the President and Vice President. Filed with Senator Hruska’s letter is the “incoming” correspondence to which his letter is a response. Virtually every letter in this series is duplicative of those contained in the Index series of this collection.

A large portion of the correspondence in this series has been destroyed. This is especially true of letters which are included in the definition “Case Work,” which were determined by Senator Hruska to be personal in nature and private to the specific correspondent and of no listing historical importance generally. “Case Work” may be defined as that correspondence involved in the Senator’s effort to assist constituents with problems arising from their particular relation with the federal government. More than 12,000 of these files extending from 1953 to 1977 have been destroyed.

The series also includes files maintained in the office on those applicants for appointment by Senator Hruska to the various service academies who actually graduated from those academies or who are currently serving in those academies on the date of Senator Hruska’s retirement from the Senate. Several hundred other such files of applicants who did not enter, or who did not complete his career in the academy have been destroyed.

SERIES 17 – RLH PERSONAL

This series contains “personal” files, correspondence, appointment schedules and visitors’ registers. Essentially, the included correspondence is interesting perhaps in itself because of some factor in addition to its content. There are several folders of invitations of various sorts gleaned from several drawers of invitations received by Senator Hruska during his service in Congress. They have been selected from among those accepted and those declined to indicate the wide range of functions to which Senators in their official capacity are invited. Other letters and files have been included here which are thought to be of interest beyond the position they would otherwise have had elsewhere in the collection.

This series also contains the office register of every appointment kept by Senator Hruska during his entire service in the Senate, together with daily schedule notes. While it is possible that in rare cases his schedule may not have been rigidly adhered to, these two accounts together reflect on a daily basis the Senator’s hourly movements and the persons with whom he visited. Finally, there are also included here the guest registers from the Washington office. Every person who called at the Senator’s office is listed here, generally with his or her own signature.
SERIES 18 – MICROFILM SERIES

For several years, roughly 1952-1970, many, though not all, of the files for those years in the office of Senator Hruska were microfilmed. Some others from prior years were microfilmed also, though not completely. Later, microfilming was stopped; in some series without completing a full year.

This series contains those microfilm reels which supplement the paper files to complete a series where papers were destroyed upon having been microfilmed. All of the microfilm in this collection are contained in carton number 213, and this register indicates the other series of this collection which are completed or enhanced by reference to the microfilm series.

There were some microfilm reels which are not included in this series, and which have been destroyed. They consisted, largely, of film of casework which were not intended to be microfilmed, but which, inadvertently, were included in those so processed. Consequently, when the decision was made to destroy casework files, as explained elsewhere in this register, the pertinent microfilm were also discarded.

Note: As noted previously, additional materials have been added to the collection since it was first organized and inventoried. These materials have not been assigned to any given series, but an inventory of these materials starts on page 289 of this finding aid.
