Macmahon et al., The Administration of Federal Work Relief (Chicago, 1941); Jere Mangione, The Dream and the Deal: The Federal Writers' Project, 1935-1943 (Boston, 1972); and J. T. Paterson, The New Deal and the States (Princeton, New Jersey, 1969).
58. Federal funds were channeled to the states through many different agencies. Those through which the Society programs were funded included the Civil Works Administration (CWA) created on November 7, 1933, which was succeeded by the Federal Emergency Relief Administration (FERA). The Works Progress Administration (WPA) was established May 6, 1935. Its name was changed to the Works Projects Administration on July 1, 1939, by a reorganization plan which consolidated several agencies into the Federal Works Agency.

The Society Museum thus became one of the three Nebraska museums among the 233 in the country found to have met "the basic definition of a museum and the standards of operation established by the museum profession."
