

Environmental Control Department, Nebraska

RG068

Nebraska. Department of Environmental Control

Records: 1971-1987

Cubic ft.: 41

Approx # of Items: 46 boxes

HISTORICAL NOTE

The Department of Environmental Control was created in 1971 by the Nebraska Environmental Protection Act. The same act created the Environmental Control Council. This council adopts rules and regulations which set air, water and land quality standards to protect public health and welfare. Members of the Council are appointed by the Governor. The director of the Department of Environmental Control is the secretary of this council. The department administers funds matched by federal funds for municipal wastewater treatment facility construction. This department administers the rules, regulations, and standards adopted to protect and improve water, air, and land quality in the state. The department provides environmental assistance throughout the state and reviews pollution control facility plans and specifications.

Records concerning environmental procedures in Nebraska can also be found in RG027.2, Department of Health and RG072, Department of Water Resources.

SCOPE AND CONTENT NOTE

This collection consists of the records of the Department of Environmental Control and the Environmental Control Council and is divided into six subgroups: 1) Director, 1971-1986; 2) Environmental Control Council, 1971-1987; 3) Water and Waste Management Division, 1971-1983; 4) Water Pollution Control, 1972-1980; 5) Land Quality Division, 1984; and 6) Legal Services, 1974-1978.

Included in the collection is administrative correspondence of the several departments, minutes of the Environmental Control Council and correspondence of the council, information on environmental legislation in Nebraska, state construction grants, and air and water quality hearings and meetings.
