film  
RG509

United States. General Land Office

Records: 1854-1934

Cubic ft.: 33.5

Approx. # of Items: 1000, and 328 volumes  
on 108 reels of 35mm microfilm; unnumbered  
amount of plats and miscellany on 13 reels  
of 35mm microfilm; and card index on 8  
reels of 16mm microfilm;

## HISTORICAL NOTE

The General Land Office was established as a bureau of the United States Treasury Department in 1812. In 1836, Surveyors-General were placed under the supervision of this bureau. The General Land Office was transferred to the newly established Department of the Interior in 1849. Its function was to supervise the survey, management, and disposition of the public domain and generally, to execute all laws relating to public land.

By the President's Reorganization Plan No. III of 1946, the General Land Office was consolidated with the Grazing Service of the Department of the Interior to form the Bureau of Land Management of the same department.

## SCOPE AND CONTENT NOTE

This record group consists of two boxes and 545 volumes of material mostly on microfilm and arranged in seven series: 1) Correspondence, 1900-1931; 2) Applications, transfers, and contests; 3) Land Entry Books, 1854-1934; 4) Land Office Registers; 5) Township plats used in the disposition of public lands; 6) Township plats-not used; and 7) Miscellany.

The bulk of this collection consists of the original land entry books maintained by the various U.S. Land Offices in Nebraska. These volumes record individual claims to the public lands in Nebraska under the provisions of the various government land laws including the Preemption Act, the Homestead Act, the Timber Culture Act, and the Kincaid Act. The entries are for the original claimant to any given tract of land and contain information relative to the date of filing, legal description, number of acres, date of final patent and other relevant data. Record of subsequent sales and transfers are not included. This information may be secured from the office of the Register of Deeds for the related county. No information is provided regarding purchasers for tracts within the various railroad land grants. Land originally chosen by the individual railroads was

sold by those railroads to individuals and such records would exist with those roads.  
The Historical Society holds records for the

ADDED ENTRIES:

Chronological Index - 9

Burlington and Union Pacific Railroad land companies.

The correspondence of Series One consists of letters of the General Land Office to the Register of the U.S. Land Office at Alliance, Nebraska, arranged chronologically in 88 volumes. The township plats in Series Five and Six are arranged by range. Also included in the collection are original applications and transfers of claims through sale or disqualification.

In order to effectively utilize the land entry books, it is necessary to know an approximate location within a particular county before a given tract can be located. The "1885 Atlas of the State of Nebraska" is useful for this purpose and provides range and township numbers. Staff members are available to assist the researcher in the location and use of these volumes.

For a detailed resume of the provisions and operations of the public land policies in Nebraska, the researcher is advised to consult Sheldon's Land Systems and Land Policies in Nebraska, copies of which are in the library.

All the records of this collection exist on microfilm except Series Six, Township Plats - not used. These plats do not comprise a complete set and include resurveys. In addition to loose plats, ranges 1-19 East and 1-20 West have sets of plats in bound volumes. SAC-FOX allotments and plats may be found in Series Five at the beginning of Ranges 16 & 17 East.

Originals exist at the Archives for Series Three and Five thru Series Seven of this collection. All of Series One, Two and Four have been returned to the Federal Archives in Kansas City. Most of the records were transferred to the State Archives by the Federal Government, October 18, 1937 under Nebr. LB286 approved April 30, 1937.

## DESCRIPTION

film

SERIES ONE CORRESPONDENCE, 1900-1931  
Incoming to U.S. Land Office, Alliance

NOTE: Some pages were filmed blank and due to bleed-through of ink from opposite page, these pages may appear blurred.

NOTE: There are gaps in Applications numbers. It is not known if these were missing or numbered in error.

NOTE: Some applications are filmed out of order. A chronological filing has been followed.

N.S.H.S. HAS ON MICROFILM:

SERIES FIVE TOWNSHIP PLATS USED IN PUBLIC LAND DISPOSITION

NOTE: Series number changed after filming. Film will show  
Series 4. Changed to Series 5.

Reel #1 #14,983	T1N-R1E thru T14N-R5W Missing: T25-26N, Ranges 6-10E Omaha Winnebago Reservation See also: Range 16 East for T12-24N, Range 11E Range 17 East for T12-22N, Range 12E
Reel #2 #15,070	T14N-R5W thru T4N-R23W Missing: T21-22N, Range 12W
Reel #3 #15,071	T5N-R23W thru T26N-R40W
Reel #4 #15,072	T27N-R40W thru T27N-R5E (Miscellany)
Reel #5 #15,090	T24N-R6W (Miscellany) thru Nemaha County 1865 original survey

NOTE: Reels 6-10 contain U.S. Surveyor General Plat Maps that are exact duplicates of the plats on Reels 1-5 with two exceptions: 1) The plats on reels 6-10 were not used by the Land Office (these maps were drawn from original U.S. Survey field notes as a working copy for the Nebraska State Surveyor; and 2) The miscellany series at the end of reel 5 is not included in this lot. These reels were duplicated for use by those people interested mainly in wagon roads, military roads, and trails. Reels 6-10 will show this information more clearly than reels 1-5. THERE IS NO PUBLIC LAND DISPOSITION shown on reels 6-10.
