Compiler's Notes

Dr. James Woods was a most methodical man. His account books and records are full of interesting notes, many of which are technical and many merely "human interest" items.

He kept a record of all his "baby cases", which in over 48 years numbered 1644 cases. These are arranged in chronological order, numbered consecutively. They were kept, remember, in the days before it was customary to keep elaborate records and before official account was kept of vital statistics. They were his private records for his own benefit, not for public consumption.

For this reason it has been necessary to do a good deal of editing. His record included such matters as still-births, abortions, etc., which have no place on public records, as they are only medical cases. The following data do not include these, but only cases in which the child was born alive. One still-birth was included by mistake. He lost only 2 patients in childbirth, one being not his case.

The information herein is offered at its face value. Without doubt there are errors in it, as many entries were made some time after the dates mentioned, from his ledger or other record. The undersigned has made little effort to correct spelling of name or to ascertain their correctness, feeling that if any guessing is to be done, it were better to let some one else do it. The undersigned therefore admits no liability for errors or other matter, being prompted merely by the desire to furnish what information is at his command, official birth records being non-existent.

Bear in mind that "4th child" (for example) does not necessarily mean 4th child by one husband, but probably means "4th pregnancy" of the woman in question.

The original record book, now fragile and quite difficult to read in places, is full of notes of a technical nature. It is being kept by the undersigned, who will gladly refer to it upon request to verify any point questioned.

A carbon copy of these data is being presented to The Nebraska Historical Society at Lincoln.

## BIOGRAPHICAL SKETCH

JAMES MUMFORD WOODS was born in Crawford County, Pennsylvania (near Custards P.O.) on November 20, 1844, the son of Horance Potter Woods and Jane Wright Mumford. As far as is known now, the name Woods was originally Woltz, and they were immigrants to Pennsylvania from Germany. The Mumfords were also a pioneer family and at least one of Jane Wright Mumford's ancestors was a revolutionary soldier. On her mother's side Aaron Wright was also a soldier in the war for independence.

Dr. Woods did not use his middle name for the reason that he thought it unnecessary.

He enlisted in Co. F, 2nd Reg., Ohio Volunteer Heavy Artillery at Lima, Ohio, on August 29, 1864 at the age of 19. Engaged in a few skirmishes and was honorably discharged at Camp Chase, Ohio, August 29, 1865.

Studied medicine and graduated from Western Reserve Medical School, Cleveland, Ohio, in 1869 or 1870. Began the practise of his profession in Arlington, Ohio, in 1870; then in Milton Center (Wood County), Ohio, and moved with his family to Schuyler, Colfax Co., Nebraska, in the month of October, 1872, arriving there on the 31st.

Dr. Woods died in Schuyler, Nebraska, on March 12, 1919. He had married Sophronia Cline at Williamstown, Ohio, on November 24, 1870. The Clines were also German settlers in Pennsylvania originally.

Their children were

Carrie Antoinette, born Aug. 18, 1872 at Milton Center, Ohio. Married Chauncy Abbott in Schuyler, Nebraska, April 8, 1896. One son, Morris Woods Abbott.

Katherine Lavone, born Aug. 24, 1876 at Schuyler, Nebraska. Married October 18, 1909 George Arthur Bevington, M.D., at Schuyler, Nebraska. He died Oct. 26, 1911. No children.

Dale James, born July 12, 1880 at Schuyler, Nebr. Married (first) Bess Dodge Lean at St. Paul, Nebraska, Oct. 6, 1906. One son, George James Woods. Married (second) Maude LaBlanc, Jan. 14, 1931. She died Dec. 29, 1933. No children.

Dr. Woods is buried in the cemetery at Schuyler. His wife, Sophronia Cline Woods (born Sept. 20, 1847) died in Los Angeles, California, on December 22, 1932.

This brings us to the time when official records were begun. The record in Dr. Woods' book extends to January 25, 1919, the last entry in his own handwriting being made on the 12th of that month. In all, it covers 1644 cases, including those in Ohio, 1870-72.

Owing to the difficulty of deciphering many names in the original MS and the compiler's unfamiliarity with many of them, it is advisable to look under similar spellings if you do not find the name you are looking for where it ought to be. For example, Smart may be found as Smort or Swart; Witt may be under Wilt, owing to indistinct writing in the original.
