

Consultants List (History, Architectural History, Historic Architecture, Architecture)

The consultants on this list have expressed interest in providing professional services in identification, evaluation and treatment of Nebraska’s cultural resources and have asked to be listed. This list is not intended to be all inclusive, and is open to consultants who represent themselves as meeting professional qualification standards (36 CFR 61). If you are a professional consultant interested in being included on this list, please submit a completed form available on the [NeSHPO website](#).

In providing this list, History Nebraska does not recommend, represent, endorse, or assume responsibility for the accuracy of this list, the quality of consultant’s work, nor guarantee that any work product produced by those on this list will necessarily meet your project requirements. The professionals on this list possess varied levels of education and experience, and their listing does not imply that every individual/firm is qualified to conduct all classes or levels of investigation, research, testing, or reporting. It neither recommends particular consultants, nor does it require that federal agencies, recipients of federal grants, state agencies, local governments, or others hiring consultants, select consultants from this list. Because it is not possible for History Nebraska to fully verify the experience and credentials of the firms and individuals included here, we strongly recommend that you ask for and check references before hiring anyone.

Below is the format of the consultants list. Beneath each heading is information submitted by the consultant.
